

Ironclad Control Sheet

Tyler, as built

Class

Hull 16

Steam 6 (8)

Batteries

1. Two or three 8" smoothbores, makes a Heavy Bat. Penetrates G at range 5.
2. Two or three 8" smoothbores, makes a Heavy Bat. Penetrates G at range 5.

The guns are assumed to be in wide ports and can bear up to 30° either side of the beam.

A single 32 pdr SB was mounted fd. Counts as a long ranged pepperer, bearing anywhere afore the beam. Another was probably mounted astern, bearing anywhere astern. In skirmish games only, these can each be replaced with 1/6th of a battery, non-penetrating guns.

Miscellaneous

About 177' 7" x 36' 10". Depth of hold 6', so prob Boat draught. Unarmoured. I think no ram. Acquired 1861 for the US Army's Western Gunboat Flotilla. Commissioned that Sept with officers provided by the Navy. Saw a lot of action. Sold out of the service, 1865. See second sheet for later armament. Acquired 1861. Gunboat with 2 or fewer batteries. 13 PF.
