

Short guideline for using the v1.1 lists with Gå På 2nd edition.

Commanders

- Recalculate points using the guidelines in the 2nd ed rule book
- Ignore the ranks of commanders; instead pick army commander first from those eligible, and then wing commanders etc.
- Monarchs purchased as special commanders should be used as special commanders (only)
- Treat all Monarchs in the v1.1 list as being charismatic, no other abilities apply.

Units

- All units should have their army points cost lowered by 2
- MC are now Horse
- MC^E are now EH
- HC are now SH
- HL are now SH^L
- LTI are given only skirmish size, non skirmish frontage is equal to half this

Tables

- Ignore the quick reference sheets in the Army List book; use the ones for Gå På 2nd edition instead. You can download these from the website: www.arnfelts.com
